Welcome,

Your children are precious gifts and we are honored to partner with you in bringing forth their fullest potential through a faith-based education where they will flourish academically and spiritually. Within our unified system of schools, St. John Paul II Catholic Schools (JPII Catholic Schools) offers a rigorous academic curriculum for students in our Pre-K program – Grade 5 at each of our three elementary school locations.

JPiI Catholic Schools offers a top-tier education where students celebrate their Catholic faith as an integral part of their daily school experience. The strength and effectiveness of a JPII Catholic School education rests on our commitment to the three pillars of Catholic education: spirituality, academics and community. Together, these foundational pillars provide the support to develop well-rounded students who are formed in their faith, academically successful, and conscious of their social responsibility on both a local and global level.

FAITH — IN EVERY STUDENT

Through all of our activities and instruction, we seek to inspire self-confidence, service, and respect for others. Most importantly, at JPII Catholic Schools, students have the opportunity to learn values that form individual character, establishing foundations for a lifetime of Christ-centered faith.

All Pre-K – Grade 5 students participate in religious instruction, liturgical celebrations, student retreats and service initiatives. Through formal instruction, service, worship, and prayer, students come to know God more deeply. Students attend weekly Mass and participate in service-learning experiences in all grade levels. JPII Catholic Schools is committed to forming and strengthening each student’s relationship with Jesus Christ.

A PLACE...WHERE STUDENTS SUCCEED

We help students discover their unique God-given gifts and talents, and are committed to offering a challenging and stimulating curriculum that supports the growth of the whole child.

- JPII Catholic Schools are accredited system-wide through COGNIA (AdvancEd)
- Daily learning experiences in language, reading, math, religion, social studies, science, art, music, and physical education.
- Curriculum planning that carefully considers the developmental levels, skills, and interests of each child allowing for differentiated learning.
- Education in Virtue provides meaning to living a well-ordered and disciplined lifestyle enabling the creation of a dynamic learning environment.
- SmartLabs in each of our elementary schools and Sullivan Middle School. SmartLabs put technology and learning resources in the hands of students, engaging learners in science, technology, engineering, and mathematics (STEM) while building critical 21st century skills.
- Our goal is to leverage technology to enhance student learning. The Technology initiative provides iPads to students in elementary grades 3-5, Sullivan, and Shanley to use at school and home.
- High levels of academic achievement in standardized test scores.
- Specialists in music, physical education, and art.
- After school child care available at most locations.
- Summer Adventures Program Kindergarten – Grade 5.
- Engaged parent organization allowing collaboration with school staff to support and improve the learning, development, and health of children.
